

Agricultural Marketing Service, USDA

§ 989.66

Such designated raisins may be acquired and disposed of free from those regulations specified by the committee. In any crop year, when the total industry acquisitions of the designated raisins exceed 500 natural condition tons or a larger quantity approved by the Secretary upon a recommendation of the committee, the exemption shall not apply.

§ 989.61 Above parity situations.

The provisions of this part relating to minimum grade and condition standards and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions pertaining to the administration and enforcement of the order, shall continue in effect irrespective of whether the estimated season average price to producers for raisins is in excess of the parity level specified in section 2(1) of the act.

TRADE PRACTICES

§ 989.62 Authorization for prohibition of trade practices.

Whenever the Secretary finds, upon recommendation of the committee or other information, that continuance of certain practices in trade channels would tend to interfere with the achieving of the objectives of this part, he may prohibit handlers from using such practices, for any crop year or portion thereof, in selling raisins in containers exceeding four pounds net weight. The prohibited practices may include:

(a) Any provision within or added to a sales contract, or action or agreement outside such contract, whereby the handler is obligated to reflect declines in market prices of raisins by charging the buyer a subsequent market price in lieu of the sales price specified in the contract.

(b) Any agreement in an undertaking to hold raisins in reserve for possible future delivery to a buyer, or action or agreement outside such undertaking, whereby the handler is obligated to not reflect increases in market prices by

charging the buyer a price specified in the agreement.

Prior to any such practices being prohibited in any crop year, the committee shall recommend, for the approval of the Secretary, such rules and procedures and such record keeping requirements as are necessary to administer these prohibitions and obtain compliance therewith.

VOLUME REGULATION

§ 989.65 Free and reserve tonnage.

The standard raisins acquired by handlers which are free tonnage, and any reserve tonnage purchased for free use, may be disposed of by him in any marketing channel, subject to the applicable provisions of this part. A handler's free tonnage of a varietal type of raisin shall be either the free percentage of the standard raisins of the varietal type acquired by him or all of the standard raisins of the varietal type acquired by him if no free percentage is established by the Committee or designated by the Secretary for that varietal type. A handler's reserve tonnage of a varietal type shall be the reserve percentage of the standard raisins of that varietal type acquired by him.

[48 FR 32977, July 20, 1983]

§ 989.66 Reserve tonnage generally.

(a) The standard raisins acquired by a handler which are designated as reserve tonnage and reserve tonnage transferred to a handler by the committee shall be held by him for the account of the committee and subject to the applicable restrictions of this part.

(b)(1) Each handler shall hold in storage all reserve tonnage acquired by him and all reserve tonnage transferred to him by the committee until he has been relieved of such responsibility by the committee either by delivery to the committee or otherwise. Such handler shall store such reserve tonnage raisins in natural condition without addition of moisture and in such manner as will maintain the raisins in the same condition as when he acquired them, except for normal and natural deterioration and shrinkage, and except for loss through fire, acts of God or other conditions beyond the handler's control.

(2) Reserve tonnage acquired by a handler or transferred to a handler by the committee shall be stored separate and apart from other raisins to such extent and identified in such manner as the committee shall specify in its rules and procedures with the approval of the Secretary.

(3) Each handler may, under the direction and supervision of the committee, substitute for any reserve tonnage raisins a like quantity of standard raisins of the same varietal type and of the same or more recent year's production. Each such handler shall give the committee reasonable advance notice of his intention to substitute, the exact location of the raisins for which substitution is to be made, and arrange with the committee a mutually satisfactory time for the substitution.

(4) The committee may, after giving reasonable notice, require a handler to deliver to it, or to anyone designated by it, at such handler's warehouse or at such other place as the raisins may be stored, part or all of the reserve tonnage raisins held by such handler. Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, in the form of natural condition raisins shall in the aggregate be not more than 2 percent less than the average maturity level of all raisins such handler acquired during the applicable crop year. The committee may require that such delivery consist of natural condition raisins, or it may arrange for such delivery to consist of packed raisins.

(c) Each handler shall, at all times, hold in his possession or under his control reserve tonnage referable to his acquisitions of standard raisins and reserve tonnage transferred to him by the committee, less any quantity of such reserve tonnage released to him by a change of percentages, delivered by him pursuant to instructions of the committee or sold to him by the committee.

(d) Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, whether in the form of natural condition raisins or packed raisins shall meet the applicable minimum grade or grade and condition standards, except for normal and natural deterioration. The committee

shall have the authority to require, in its discretion and at its expense, such reinspection and certification of reserve pool tonnage raisins as it may deem necessary.

(e) In the event the committee offers to handlers reserve tonnage raisins for contract packing or for sale in export, as provided in § 989.67, each handler shall be given the opportunity to pack or purchase his share of each offer.

(f) Handlers shall be compensated for receiving, storing, fumigating, handling, and inspection of that tonnage of reserve raisins determined by the reserve percentage of a crop year and held by them for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary. A box rental shall be paid by the committee to producers or handlers for boxes used in storing reserve tonnage raisins beyond the crop year of acquisition in accordance with a rental schedule established by the committee and approved by the Secretary. The handler compensation shall be reviewed annually and shall be paid, as to the amount determined to be earned and unpaid, as soon as practicable after the end of the second quarter of the crop year and quarterly thereafter. Any handler may request the committee, by registered or certified mail, at any time after June 1 of a crop year to remove or relocate reserve tonnage raisins of the current crop year which remain in his possession. At any time during a crop year, a handler may request removal or relocation of reserve tonnage of a prior crop year. In each instance, he may request that the committee provide the necessary containers for any such removal or relocation. When so requested as to current crop year raisins, the committee shall make the removal or relocation, the availability of containers, storage space and time of request permitting, by September 15 of the subsequent crop year, and as to raisins of the prior crop year, within 30 days, supplying the necessary containers if so requested. If the committee removes or relocates reserve raisins of the current crop year pursuant to a handler's request, and such raisins are released to him by September 15 of the subsequent crop

year, the handler shall reimburse the committee for any costs incurred by it in such removal or relocation. If any handler requests removal or relocation of reserve raisins, the committee shall immediately give notice thereof to the Secretary.

(g) The committee shall have the authority, in its discretion, to obtain loans, nonrecourse or otherwise, on any part of the reserve tonnage not subject to release as desirable free tonnage and to pledge or hypothecate the raisins on which such loans are obtained as security therefor: *Provided*, That in every such case, there shall be included in the loan agreement a provision to the effect that, in case the lender obtains possession or control of such raisins, he will dispose of them in such a manner as will not tend to defeat the objectives of this amended subpart. The net proceeds of any such loan shall be distributed by the committee pursuant to paragraph (h) of this section.

(h) The net proceeds from the disposition of reserve tonnage raisins of any varietal type shall be distributed by the committee to the respective producers, or their successor in interest thereto, on the basis of the volume of their respective contributions to the reserve tonnage of such varietal type. Distribution of the proceeds in connection with the reserve tonnage contributed by a nonprofit cooperative marketing association which has authority to market the raisins of its members and to allocate the proceeds therefrom to such members shall be made to such association. Advance or progress payments may be made by the committee, in conformity with the provisions of this paragraph, as sufficient funds become available.

§ 989.67 Disposal of reserve raisins.

(a) At the time the committee meets to consider free and reserve percentages for a crop year, the committee shall consider the marketing of reserve tonnage raisins for the subsequent 12-month period. The committee shall dispose of all reserve tonnage in such manner as to achieve, as nearly as may

be practicable, maximum disposal of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. Any reserve tonnage raisins held unsold by the committee on May 1 of the subsequent crop year shall be physically disposed of promptly in any available outlet not competitive with normal market channels for free tonnage raisins or sales of new crop reserve tonnage raisins in export: *Provided*, That, whenever the Secretary finds, based upon a recommendation of the committee, or on the basis of information otherwise available to him that because of national emergency, crop failure, an insufficient supply of reserve tonnage raisins for export, or other change of economic or marketing conditions, retention of reserve tonnage raisins carried over is warranted, the foregoing requirements as to disposal shall not apply and such raisins may be disposed of in any outlet recommended by the committee and approved by the Secretary.

(b) Reserve tonnage raisins shall be disposed of by the committee:

(1) By sale to handlers for sale in specified outlets or for resale to exporters for sale in export outlets;

(2) By direct sale to any agency of the U.S. Government for noncompetitive use;

(3) By direct sale to foreign government agencies or foreign importers in any country not listed pursuant to paragraph (c) of this section or where the procurement of raisins is so regulated as to preclude purchases from domestic handlers;

(4) By gift; and

(5) By any other means consistent with the provisions of this section, and in outlets noncompetitive with those for free tonnage raisins.

(c) The committee shall sell reserve raisins to handlers for export sale to countries on a list established by the Secretary, on the basis of the recommendation of the committee or from other available information. The list of countries shall be reviewed by the committee annually when it reviews matters relating to the free tonnage, and shall recommend any changes in the list to the Secretary for approval. No country may be removed
